Profile

UX/UI Designer with a Robotics & AI Engineering background and experience in end-to-end product design, UX research, prototyping, design systems, usability testing, and responsive web and mobile products across travel, payments, cloud, and B2B platforms.

Work Experience

2025-Present – UX/UI Designer @ Mtel (Thailand)

1 Year +

- Designed and shipped end-to-end UX/UI for **ThaiPass** across four travel services—vouchers, FastPass, transport, and eSIM—using a reusable **design system**.
- Designed the **BCC Calculation Program**—a responsive four-stage workflow with three calculation tools and A4 report export.
- Built **ThaiPass CMS** and **Mtel Pitch**—an internal management tool—using AI-assisted development with React, Tailwind, and Supabase.
- Designed car submission and hotel registration flows for **Anantara Concorso Roma 2027**, digitizing its paper-based hotel form.
- Designed two B2B **Fleet Management Portals**—spanning rental requests, operations, commercial documents, and financing.
- Designed two government pitch concepts—**Net Zero** for national carbon compliance and **MyanmarPass** for migrant-worker services.

2024 – UX/UI Designer Intern @ NIPA Cloud

6 Months

- Designed a guided **Load Balancing Service**—simplifying infrastructure, pricing, and configuration for non-expert users.
- Redesigned the **Payment System** credit top-up flow across five payment methods and five responsive breakpoints using **Design System 2.0**.

Education

2021-2025 – King Mongkut's Institute of Technology Ladkrabang

Bachelor of Engineering, Robotics & AI Engineering — GPA : 3.44

2009-2021 – Assumption Samutprakarn School

Primary & Secondary Education, English Program — GPA : 3.98

Industrial Design

- **RISA**—designed the Fusion 360 body, display mount, and 3D-printed assembly for an autonomous AI assistant built by a four-person team.
- **Live Stand**—designed a multifunctional phone stand integrating articulated positioning, lighting, active cooling, and USB-C power.
- **Piston Ballast Tank Submarine**—created a four-cylinder CAD concept for controlled buoyancy and pitch.

Credentials

- **IELTS** — Band 7.0 (CEFR C1)
- **TOEIC** — 970/990 (CEFR C1)
- Google UX Design Professional Certificate
- Google Data Analytics: Foundations
- AWS Academy Cloud Foundations
- Unity Essentials Pathway

Core Skills

- UX/UI Design
- UX Research
- Usability Testing
- Wireframing & Prototyping
- UX Writing
- Design Systems
- Agile Development
- Software Development
- CAD & Industrial Design
- 3D Design & AR/VR
